We contacted Johnson Surfacing Limited after another firm had made a complete mess of laying a new tarmac drive. The staff in the office, Sebastian Johnson (Director) and all the men who worked on the job taking up the other drive and laying a new one were very helpful, courteous, professional and friendly. They went out of their way to make the process as easy and painless as possible for us. The end result was a correctly laid drive which we are very happy with. We would highly recommend this company without hesitation.

Johnson Surfacing, mainly in the person of P Johnson, has provided an extremely high quality of service, both in the many months of negotiations with residents about funding and planning the project and in the completion of the work itself. Mr Johnson has always been patient, considerate and made every effort to meet the requirements of all residents. At the same time, employing his own knowledge and experience to ensure that the work was of the highest quality. Having been the co-ordinator for the residents and therefore meeting and talking to him on many occasions, I cannot speak too highly of his personal and professional qualities. I recommend this company without reservation of any kind.
